Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Interview started with Examiner bringing up the supposition that the transformation step from first schema to a different second schema is not clearly defined, and a step is needed that clearly shows the generation of a different second step and the difference between the first and second schema should be outlined. Attorney then moved on to the argument that Lee does not disclose a second XML schema different from the first XML schema. Examiner disagreed, and no agreement was reached.
